

THE LEGEND OF SLEEPY HOLLOW

MAKE A HALLOWEEN BOOKMARK

INSTRUCTIONS

Start by folding the square in half diagonally to create a triangle. Both colored areas should show on the top of the triangle, then flip the triangle over.

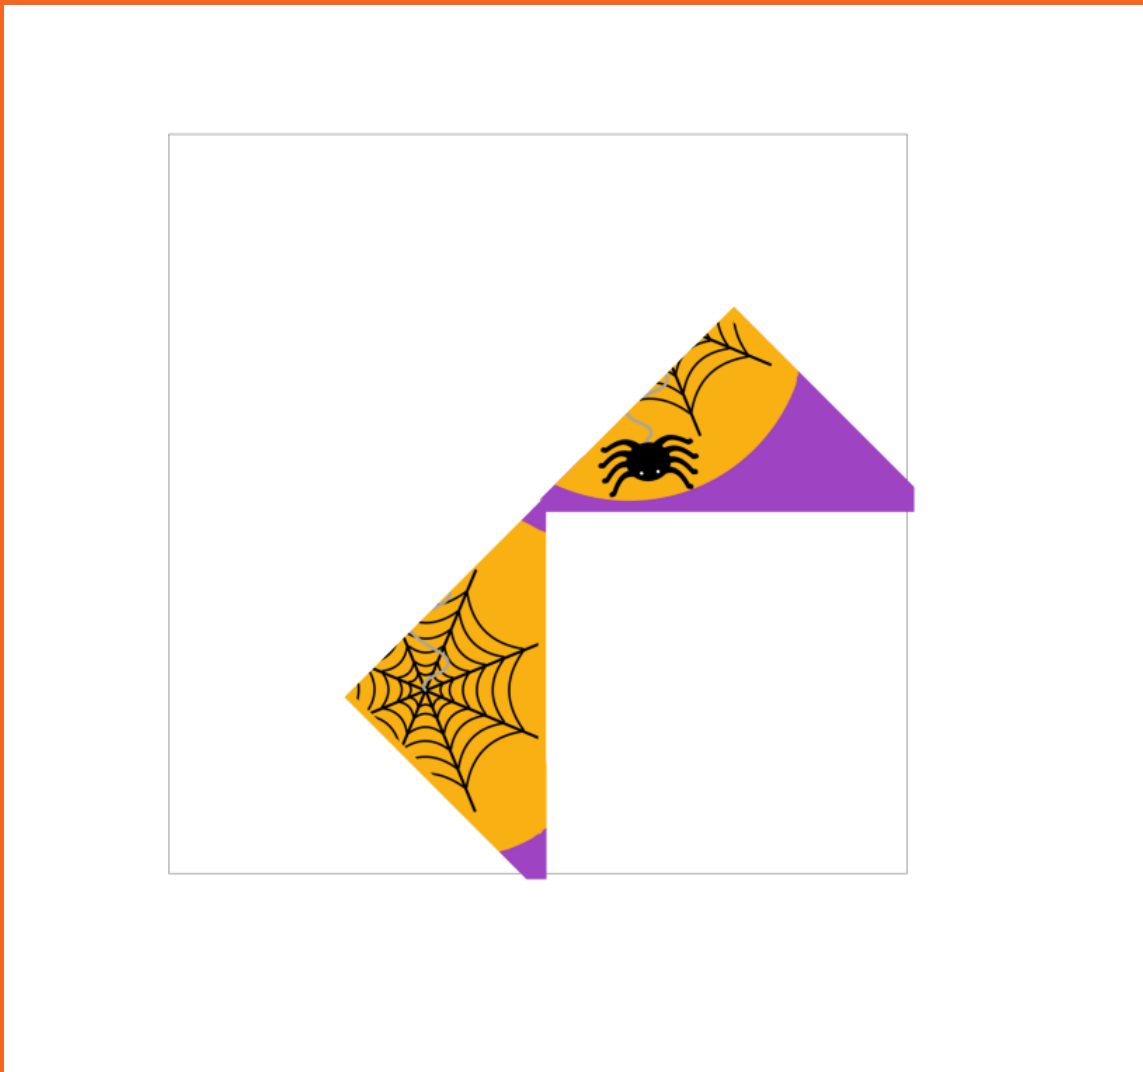

Next, fold each outer corner of the triangle to meet together at the top of the triangle and form a face. When doing this, make sure the two sides of the face line up. Press along all the folds to crease.

Then open up the last fold you did so you are back to the original triangle. Fold the top point of the triangle down, using only the *top* layer of paper.

Finally, fold one corner back up and tuck it into the "pocket" created in the last step. Repeat with the other corner.
