

PEEK-A-BOO PUPPETS - Recommended for ages 7+

Materials List (view picture on right):

- White paper cups
- Pipe cleaners
- Pom poms (various colors)
- Googly eyes
- Wooden dowels
- Hot glue gun
- Markers
- Optional: other decorative cup materials

Instructions:

STEP 1: Glue pom poms and googly eyes onto the wooden dowel to create the body of the puppet. Pom poms can be any color.

STEP 2: Cut pipe cleaners to become appendages and other features then glue them onto the body. Pipe cleaners and other features may vary in color, size, and shape.

STEP 3: Poke a hole in the bottom of the cup and insert the dowel and puppet. The puppet will 'hide' inside the cup and peek-a-boo in and out.

OPTIONAL: Create an environment for your puppet by adding more design to your cup. Use markers, construction paper, or even cotton balls for snow.
